TVI Corporation Receives Order from the State of Florida

GLENN DALE, MD – June 19, 2006 – TVI Corporation (NASDAQ: TVIN), a global supplier of rapidly deployable first receiver and first responder systems for homeland security, hospitals, the military, police and fire departments, and public health agencies, today announced that it has received an order exceeding \$600,000 from the state of Florida for Bio-Isolation Shelter Systems, Decontamination Systems, Command/Logistic Shelters and accessories. This order was placed through one of TVI’s largest distributors and further extends the Company’s relationship with the state of Florida, which has utilized TVI products since 2001.

“This order demonstrates the continued market interest in our decontamination and infection control systems,” said TVI Corporation Chief Executive Officer Richard V. Priddy. “With hurricane season rapidly approaching, the state of Florida is ensuring that its first responders and first receivers are equipped with state-of-the-art technology and the highest quality equipment. We are pleased to see the state taking proactive steps and investing in its emergency preparedness. Through this order, Florida is significantly better prepared for not only hurricane season, but other potential natural disasters, bio-terrorism scenarios or pandemic events.”

TVI’s Command/Logistics Shelters employ the Company’s patented articulating frame technology designed for rapid deployment and to protect under the most severe conditions. The multi-use shelters provide enclosures for command/logistics, as well as triage, patient care and rehabilitation. TVI’s Mass Casualty Decontamination and Bio-Isolation Shelter systems provide protection from toxic chemical, biological, radiological or nuclear (CBRN) materials.

About TVI Corporation

TVI Corporation, located in Glenn Dale, Maryland, is a global supplier of rapidly deployable first receiver and first responder systems for homeland security, hospitals, the military, police and fire departments, and public health agencies. The Company designs, fabricates and markets products and systems both through distributors and directly to end-users and OEMs. These systems include chemical and biological decontamination systems, infection control systems, and powered air respirator systems for individuals. The Company's core systems are fabric shelter structures, which employ the Company's proprietary articulating frame. The Company also sells a line of thermal products, which includes targets, IFF (Identification Friend or Foe) devices, beacons and markers, and decoys.

During the past several years, TVI's product line has expanded to include Chem/Bio Isolation systems for hospitals and first responders, trailerized first responder products, crime scene investigation systems for police, and mobile hospitals. TVI's products, and others of their kind, represent integral components of a standard decontamination process.

The TVI designation is a trademark of TVI Corporation. All other company and product names mentioned above are trade names and/or trademarks of their respective owners. “Safe Harbor” Statement under the Private Securities Litigation Reform Act of 1995

Information contained in this press release constitutes forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995 and involves expectations, beliefs, plans, intentions or strategies regarding the future. These statements may be identified by the use of forward-looking words or phrases such as “should”, “anticipates”, “believes”, “expects”, “might result”, “estimates” and others. These forward-looking statements involve risks and uncertainties and are not guarantees of future performance, as actual results could differ materially from our current expectations. Such risks and uncertainties include achieving order and sales levels to fulfill our revenue expectations; expected costs or charges, certain of which may be outside our control; the time and costs involved in the research, development, marketing and promotion for our products; the possible cancellation or non-fulfillment of existing orders or distributor commitments for our products; our ability to respond to product and other changes in the counter-terrorism, military, public safety and first responder and first receiver communities; our ability to maintain and manage our growth; difficulties in integrating the operations, technologies and products of any businesses we have acquired and may acquire; general economic and business conditions; adverse changes in governmental regulations; the possibility that our products contain unknown defects that could result in product liability claims; and competitive factors in our markets and industry generally. Numerous other factors could cause or contribute to such differences, including, but not limited to, those set forth in the Company’s Annual Report to Stockholders, periodic reports, registration statements and other filings made with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as to the date of this press release. We assume no obligation to update any such forward-looking statements, whether as a result of new information, future events or otherwise.
