TVI Corporation Receives Order from the Veterans Affairs Healthcare System of Ohio for Pandemic Preparedness Systems

GLENN DALE, MD – November 20, 2006 – TVI Corporation (NASDAQ: TVIN), a global supplier of rapidly deployable first receiver and first responder systems for homeland security, hospitals, the military, police and fire departments, and public health agencies, today announced it has received an order valued at more than \$300,000 from the Veterans Affairs Healthcare System of Ohio (VISN 10) for TVI's surge capacity and pandemic preparedness suite of products. This order was placed through one of TVI's largest distributors.

The VA Healthcare System of Ohio is one of 21 Veterans Integrated Service Networks (VISN) designed to increase efficiency and improve integration of resources and service delivery. The overarching goal is to provide better patient-centered care.

"We are pleased to see Ohio's Veterans Administration (VA) investing in its healthcare preparedness," said TVI Corporation's President and Chief Executive Officer, Richard V. Priddy. "This order is representative of the high level of interest in our newest surge capacity and pandemic preparedness product suite. The addition of TVI's innovative technology will greatly enhance the existing emergency preparedness capabilities for VISN 10. Our surge capacity shelters will act as the first line of defense during a major incident throughout the Ohio VA system."

In the event of a natural disaster, terrorist activity, or industrial accident, the VISN 10 staff can utilize TVI's equipment to rapidly deploy surge capacity shelters, inoculation stations, decontamination, command and control, triage, and aid stations in strategic locations throughout the state of Ohio.

In the event of a pandemic outbreak, the VISN 10 staff will have the ability to deploy TVI's pneumatic shelters and inoculation stations in multiple locations throughout the state, and administer flu vaccines, antibiotics or other critical medicines that may ultimately save the lives of VA patients in Ohio.

About TVI Corporation

TVI Corporation, located in Glenn Dale, Maryland, is a global supplier of rapidly deployable first receiver and first responder systems for homeland security, hospitals, the military, police and fire departments, and public health agencies. The Company designs, fabricates and markets products and systems both through distributors and directly to end-users and OEMs. These systems include chemical and biological decontamination systems, infection control systems, and powered air respirator systems for individuals. The Company's core systems are fabric shelter structures, which employ the Company's proprietary articulating frame. The Company also sells a line of thermal products, which includes targets, IFF (Identification Friend or Foe) devices, beacons and markers, and decoys.

During the past several years, TVI's product line has expanded to include Chem/Bio Isolation systems for hospitals and first responders, trailerized first responder products, crime scene investigation systems for police, and mobile hospitals. TVI's products, and others of their kind, represent integral components of a standard decontamination process.

The TVI designation is a trademark of TVI Corporation. All other company and product names mentioned above are trade names and/or trademarks of their respective owners.
